Documents

2013-10-30 – Documents from groups 9-16 have been chronologically reordered. Group 16 was changed to group 9, and the former group 9 and subsequent documents through group 15 have had their group numbers increased by 1. Also, group 3 documents have been reordered sequentially.

2014-06-04 – We have been made aware that some people are having problems accessing at least some of these documents. We are investigating the cause of the problem and a solution. We are sorry for any inconveniences.

2014-06-07 – After limited testing of this website and others, it appears there may issues with Adobe Acrobat browser plug-ins when running on Windows Vista/7 64-bit. It is not known whether 32-bit versions are affected. All documents have been converted to an older Acrobat format, version 1.3 (Acrobat 4.x) to try to minimize interruptions and maximize compatibility. If you experience problems downloading/viewing these documents, try either downloading the documents before viewing them or disabling your Adobe Acrobat browser plugins.

2014-06-08 – If you have problems viewing these documents, questions, or concerns, please contact us. You can use our [Contact Form](#) by clicking [here](#).

If you are having problems viewing the documents with Adobe Acrobat, try disabling the browser plugin. *PDF documents may download faster as well. (There is software available from companies other than Adobe for viewing PDF documents as well.)*

1. Start your Adobe Acrobat or Acrobat Reader program.
2. Select the *Edit* option from the menu.
3. Select the *Preferences* option at the bottom of the sub-menu.
4. Under the *Categories* list on the left, select the *Internet* option.
5. Deselect the *Display PDF in Browser* option.
6. Select the *OK* option at the bottom right.
